Q21 - What sex were you assigned at birth, on your original birth certificate? This information is being collected to develop an aggregate report of counseling students in our program, not to identify any specific student. CACREP requires we collect demographic data for our program. Counseling faculty will see the aggregate results of these surveys, and only the program coordinator will see individual student responses. The survey is housed on Qualtrics in a private and secure account.

Q13 - What do you see as the greatest strength of the UTM Counseling Program?

What do you see as the greatest strength of the UTM Counseling Program?

Faculty! (Not the adjuncts)

Advisors and professors are great. They were super helpful and supportive through the entire program

The rich and insightful feedback on recorded session.

Such great, supportive, encouraging, and relatable staff!

The greatest strength of the UTM Counseling Program is its professors. They genuinely care for you and genuinely want you to succeed. Even though I only ever had interactions with them over email or Zoom, I felt close to them and knew they were in my corner. I would not be where I am today without them!

Q14 - What do you see as the most important area for improvement for the UTM Counseling Program?

What do you see as the most important area for improvement for the UTM Counseling Program?

Being careful with adjunct supervision and fostering more group work opportunities. Also communicating significance of CACREP accreditation...

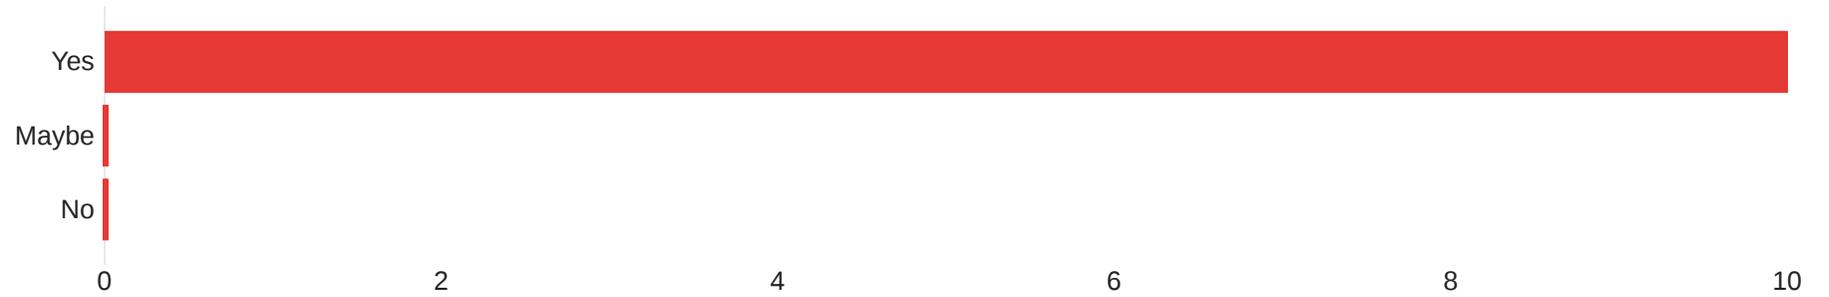

IEP/504 exposure

None

I wish there was a course dedicated to things like parent meetings or how to navigate accommodations meetings with parents, teachers and admins.

The most important area for improvement is instruction. I missed the ability to learn from my professors' instruction. The textbooks and supplemental material were valuable; however, I missed that face-to-face instruction from my professors. Maybe this could be done through Zoom? I'm not sure what the best way is to go about that.

Q15 - Would you recommend the UTM Counseling Program to potential graduate students?

Q16 - Please describe why you would, would not, or might recommend our program.

Please describe why you would, would not, or might recommend our program.

Would for faculty and program. Would not for adjunct supervision and CACREP issue.

Great program--learned so much from each experience. Classes were relevant and the professors tried to make the material real life ready.

It is a wonderful program that prepares you for the counseling field.

I would DEFINITELY recommend this counseling program to anyone wishing to pursue this profession! In fact, I already have! I feel so prepared to enter into my first full-time counseling position because of how well this program has prepared me. At each site I was at throughout the program, my supervisors all said that this program was better than the other programs other interns were going through, and they thought the assignments were very appropriate for this profession. I love UT Martin, and I love this program. I will recommend it to anyone and everyone!

The program offers flexibility for working adults and provides supervision opportunities.

Q17 - We are proud that you are part of the UTM Counseling Program! Please add any additional comments about your experience with us.

We are proud that you are part of the UTM Counseling Program! Please add any additional comments about your experience with us.

Could not have choose a better program!! Best program in America!!

I appreciate all my professors and felt that this was a wonderful experience.

JUST SO THANKFUL TO HAVE BEEN A PART OF THIS FULLY-BASED ONLINE PROGRAM!

Thank you for all that you've done to further my abilities as a school counselor. I am so grateful. I get to pursue a career I am truly passionate about because you all accepted me into this program and helped cultivate within me a deep admiration for students and this profession. This will never be lost on me.

I completed my practicum and both internships at a private group practice, and I'm thrilled to share that I accepted a job at my placement site! Also, I have already submitted application to take the NCE and will be working towards temporary licensure following graduation.
